

IF THE BALL DROP MOTOR ON YOUR DBA POOL TABLE REQUIRES REPLACEMENT

- If your VALLEY TABLE motor looks like the one on the LEFT, order [part # 880200136](#)
- If your DYNAMO TABLE motor looks like the one on the LEFT, order [part # 880200137](#)
- For a BRUNSWICK METRO with a motor like the one on the LEFT, order [part # 880200132](#)
- If the motor in your Valley Great 8 looks like the one on the RIGHT, order [Kit # 030205025](#)
- If the motor in your Dynamo Pro Plus looks like the one on the RIGHT, order [Kit # 030205030](#)
(Motors like the one on the RIGHT have not been used in over 15 years)
- If your motor looks like NEITHER of these, it may pre-date the motor on the right, but more likely a third-party manufactured kit was installed, and we don't stock motors for those. [contact Valley-Dynamo Tech Support](#) or the manufacturer of the kit.

MOTOR KIT INSTRUCTIONS

Remove old motor bracket and motor assembly.

Install New Motor Bracket as shown in FIGURE 1.

Mount the New Motor as shown in FIGURE 2.

Install the New Motor Arm as shown in FIGURE 3.

NOTE: When the motor is in the off position the arm should be pointing to the Push Chute Cash Box.

FIGURE 4 shows more detail on how the arm attaches to the motor shaft.
