

Even more Battery & Charger improvements for DBA Tables

Customers demanded it, we responded. An even larger, higher-capacity battery is available for our DBA tables. Like with all batteries, there are “positives” and “negatives” to contend with. Which battery is right for you? Our Technical experts can advise you, but only you know for sure.

And remember, these are not “Magic batteries” only available from Valley-Dynamo and nobody else. Save on freight and contact a local battery supplier
