

VALLEY Bumper Pool Bumpers

Valley has had many different bumper pool tables with many different parts over the years, but the ONLY bumper we have (and the only bumper used for the past 20+ years) may not fit your older-model table. We no longer stock metal or plastic bumpers, only this wooden model

Here are the measurements and dimensions for our current model bumper. The current model rubber ring fits this bumper. We make no guarantees that this bumper fits tables 30, 40, 50, 60 or more years old. No returns are offered if it does not fit.
